

About Truth + Tails

Truth + Tails' books aim to eliminate prejudice, encourage acceptance, celebrate diversity and aid understanding. They are primarily aimed at 5 to 8-year-olds, but can be enjoyed by all ages due to the engaging stories and colourful, hand-drawn illustrations. All books are available from Amazon in e-book (RRP £3.99) and paperback (RRP £7.99).

Why Truth? Because we believe in being honest with children from the moment that they're old enough to understand and be inquisitive about the issues that we're tackling.

Why Tails? Because each story is told using loveable, beautifully illustrated animal characters.

Who are Truth + Tails?

Truth + Tails is Alice Reeves (author) and Phoebe Kirk (illustrator). A shared passion for supporting and educating children led them to come up with the idea of socially-conscious children's books, taking a range of 'hard-to-explain' concepts and making them easy to understand. The partnership was formed in March 2015 and has since released four books.

Molly the Mole

Molly the Mole has lots of friends, but sometimes gets sad because of how different she feels. Then one day, she realises that the reason her friends love her is because there aren't many animals like her around.

Molly the Mole addresses the difference between the way we sometimes perceive ourselves, and the way our friends and family perceive us. Molly and her friends teach us to celebrate who we are, rather than being sad about what we're not.

Truth & Tails

Vincent the Vixen

Vincent the Vixen loves nothing more than playing make-believe with his brothers and sisters. But although the fox cubs all love using their imagination to be whoever they want to be, Vincent is happiest when he understands and accepts who he really is.

Vincent the Vixen is one fox's story of understanding their gender identity. Vincent and his family teach us that by listening, understanding and accepting we can make life much easier for anyone questioning their gender.

Carlos the Chameleon

Carlos the Chameleon is a unique little creature. He can change his colour to fit in anywhere in the rainforest. But soon, he realises that he fits in best with all the animals when he's being himself.

Carlos the Chameleon is the tale of a chameleon that changes colour to fit in with different groups of friends. When the other animals find out, they teach him that his own colour is beautiful and that he doesn't need to change himself to be accepted and loved.

Roxy the Raccoon

Roxy the Raccoon lives in the forest with her three best friends, who she loves to visit and play games with. Roxy teaches her friends that by making a few small changes and working together, the forest can be a better place for everyone.

Roxy the Raccoon educates her friends about ways to be more inclusive of those who have a disability, including creating ramps for animals who can't climb, and adapting games to ensure that more people can join in,
